Abstract Disclosure

The 2-in-1 Tees-n-Bibs, are made with plastic snaps and soft velcro, former name hooks & loops. This will be attached to the neck line of the child's tee shirt. The snaps and the velcro all will be sewn on the tee shirt part underneath the child's neck. The snaps with the plastic round part that fit into the flat part of the snaps, will be on the tee shirt. And the round ball or oval shape part will be attached to the bib alone with the rough part of the velcro. It should look like a bib without the strings attached to the bib.

Brief Description

My idea is a baby half tee shirt and babies one piece tee shirt, with two detachable bibs. They will come in all colors and sizes, and extra bibs will be available in the 2-in-1 Tees-N-Bibs. It will snap and velcro underneath the neck part of the tee-shirts. No, I have not seen any other similar idea. What make my idea so unique, is the bibs will snap and velcro right onto the front of the child clothing, it will be convenient and easy to use.
